

## Informative workshop on VIRAL hackathon for students of the University of Banja Luka - Meeting minutes -

28<sup>TH</sup> APRIL, 2021

University of Banja Luka  
Faculty of Agriculture  
Library of Faculty

The workshop started at the planned time (12:00). The workshop was attended by representatives of the INNOVATION CENTER BANJA LUKA (ICBL) and Faculty of Agriculture in Banja Luka in charge of the implementation of the work package WP3, as well as students of the University of Banja Luka, interested in VIRAL hackathon in Banja Luka.

The operational part of the meeting began by introducing the present students to the upcoming hackathon in Banja Luka. Marko Rosić (ICBL) presented informations important for the preparation and organization of the hackathon itself. The way of applying, the topics that will be the subject of work on the hackathon, the rules of participation, the prize fund as well as the possibility of further work on their ideas in cooperation with ICBL. Marko especially pointed out the possibility of translating certain ideas into real business.

As part of the presentation, students also saw a video that briefly shows one of the hackathons realized in the previous period and the atmosphere of participation. Prof. Dr. Miljan Cvetković emphasized the importance of participation and benefits for the participants (students) who can have further work and advancement in their profession.

Nakon prezentovanja organizacije hakatona diskusiju sa studentima vodili su Marko Rosić (ICBL), Miljan Cvetković, Petar Nikolić i Nikolina Đekić. Studenti su bili zainteresovani oko načina formiranja timova, što im je pojašnjeno kao i o samom pristupu prijavi na hakatone i načinu odabira timova. Sve informacije kao i samu prijavu će pronaći na Web stranici Projekta. After the presentation of the hackathon organization, the discussion with the students was led by Marko Rosić (ICBL), Miljan Cvetković, Petar Nikolić and Nikolina Đekić. The students were interested in how to form teams, which was explained to them, as well as the approach to applying for hackathons and how teams will be selected. All information as well as the application itself will be found on the Project website (<http://viralerasmus.org/>).
