

Information workshop on VIRAL hackathon for students held at the University of Tuzla

- Meeting Minutes -

APRIL 26TH, 2021.

University of Tuzla
Faculty of Electrical Engineering

On the 26.04.2021. at the University of Tuzla, a hackaton promotion was held. The promotion was held for students of the Faculty of Electrical Engineering, University of Tuzla. Hackaton, that will be held in Banja Luka in the period 20-22.05.2021. was presented by Marko Rosić, a member of the "VIRAL" project team from the Innovation Centre Banja Luka.

During the presentation, a promotional video was shown, students get information about concept of event and all logistic information about event.

During the promotion, we explained to the audience the benefits they can get by participating in this type of event. New knowledge, networking, as well as valuable rewards are just some of the benefits that students will receive if they participate. Problems that will be solved are also presented. Finally, we explained the application process to the students.

Banja Luka, April, 27th, 2021.
